Old Business:

1. Second Reading – Amendment to Code of Ordinances Chapter 36, Article III Community Sewer System

Supervisor Walls explained the Township requires that for all community sewer systems, the developer has to establish a deposit with either cash or an irrevocable letter of credit. Those funds are to be used by the Township for repair, maintenance or other problems that may occur with the system.

This amendment modifies the current provision which gives the homeowners association, if it's a cash deposit, control with dual signature on the account. The modification gives the control of cash funds to be deposited and maintained by the Township. There has been difficulty in the past getting two party checks honored and keeping track of who and where. The easiest way to make sure funds are available when needed is if the account is maintained by the Township.

There were no questions or comments.

- * **Clerk Moreau moved to adopt Amendment to Code of Ordinances Chapter 36, Article III Community Sewer System by amending Section 36-344(c) and Section 36-344(d)(4) as published for Second Reading; amendments to take effect upon publication of notice of adoption. Trustee Vallad supported the motion. Vote on the motion. Yes: Cooper, Dubre, Hensler, Hopper, Moreau, Vallad and Walls; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

New Business:

1. Dixie Lake Board Appointment

Supervisor Walls noted that four individuals have submitted letters of interest for the appointment. Also, that Board members received a map in their packets showing the location of the interested individuals and current Lake Board members property on the lake. Supervisor Walls said he had the opportunity to talk with all four of the candidates and they all seemed to have similar goals.

Clerk Moreau thanked the candidates who were present and stated that it showed their interest in the position. She also said that it was helpful to have received a recommendation from the Dixie Lake Manor Association - that recommendation was for Donna Ventimiglia.

Supervisor Walls commented he was originally concerned that two candidates lived along the same portion of lake however Ms. Ventimiglia, had also lived on Sherwood for 20 years prior to moving to Dixie Lake Manor so she has had exposure to the northern part of the lake as well. He noted she also had other qualifications and her answers to his questions, in his opinion, would make her a good lake board member. He also commented on Ms. Lentine-Vining and hoped that once she has a little more time on the lake, would apply again if an opening becomes available.

Clerk Moreau also said that Ms. Ventimiglia and Ms. Lentine-Vining stood out to her since both have served on the homeowners association.

Treasurer Dubre commented that she referred back to the lake board representative guidelines and found that location on the lake was not an issue when the guidelines were established.

Trustee Vallad also looked at the geographics and given that Ms. Ventimiglia spent many years on another portion of the lake, reinforced his support of her.

- * **Clerk Moreau moved to appoint Donna Ventimiglia as representative on the Dixie Lake Improvement Board for the term expiring in October 2018. Trustee Vallad supported the motion. Vote on the motion. Yes: Cooper, Dubre, Hensler, Hopper, Moreau, Vallad and Walls; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

Supervisor Walls thanked all the candidates for their interest.

2. Dixie Highway Design Guidelines

In the Board packet and displayed on the video screen was a draft of the designated committee's proposal for design guidelines for the Dixie Highway corridor. As explained in Supervisor Walls's memo dated September 8, 2015, the Board is being asked to consider approving the guidelines with the understanding that any clerical or clarity revisions could be approved by the Clerk and Supervisor without having to come back to the Board.

Supervisor Walls provided a brief background of planning efforts to date and why the committee was formed. It was noted the committee consisted of two Board members and initially three Planning Commission members, however one was unable to continue, and the Township planning consultant. The committee was formed to guide the Township through a strategic planning process for the Dixie Corridor. The guidelines were developed to depict Springfield's character in a format that can easily be communicated to property owners and developers and be used as a resource for Township officials and staff.

Clerk Moreau, one of the committee members, presented an overview of the proposed guidelines for Streetscape and Building and Site Design. Ms. Moreau also explained the Flexibility In Application section and some of the items included in the Appendix.

Supervisor Walls asked Board members for questions and comments.

Trustee Hensler said the plan is great and that she looks forward to new development.

Trustee Cooper stated that these guidelines should also apply to the north end of the Township. Supervisor Walls responded that these guidelines are intended for the entire Township; there is nothing in the guidelines that does not apply equally throughout the area; these concepts can be encouraged anywhere.

Clerk Moreau added, however, in the Dixie Overlay District, the guidelines will be required.

Supervisor Walls explained the primary thought that initiated these guidelines was for new development but it has been structured to also encourage existing businesses, overtime, to modify their sites so the entire corridor would have a cohesive look.

Trustee Vallad agreed the committee did great job however he had some reservations about its application to existing businesses. They are already established and the Township will have to try and get them to "buy in" and grasp the concept when doing renovations or reconstructions. He also noted the changes he saw in the visuals over the last month were quite extensive.

Laura Moreau, Clerk

Trustee Hopper said he understood Trustee Vallad's concerns and noted these guidelines will be rolled into the Township's new Master Plan and used as a tool to guide businesses in the vision of the Township. Even though the Township can't make business owners conform, it will hopefully give them direction.

Treasurer Dubre commented the presented guidelines are great, they have come a long way from when this was started. It was amazing to see how this developed into more than what was originally imagined. She appreciated the amount of time and energy that went into creating these guidelines and recognized how difficult it is to get that many people to agree on something; outstanding.

Supervisor Walls commented on how much this document changed with having the opportunity to sit down with Sally Elmiger. Ms. Elmiger has a grasp of Springfield and the phenomenal ability to understand what the committee was trying to convey; she was a great help.

Nancy Strole, 11990 Davisburg Road, said she has been following this idea/plan for some time and congratulated the Board and the Planning Commission for the development of these guidelines; it wasn't easy to get to this point. This is a huge and positive step forward for the Township and its residents and what the Township will look like in the future. The narrative was put together in an easy to look at format with understandable bullet points and visuals. The Board should appreciate what a huge step this is. She suggested that with respect to the plant list, to go back and see if there are any other plants that could be included. As a resident of Springfield Township, thanked the committee very much and also expressed her appreciation for Sally Elmiger.

Clerk Moreau commented that working with this committee was a great experience. It was a culmination of lots of people working together for a long time and if there had not been some concerns and doubts along the way, the guidelines would not have grown to what it was. It took a lot of effort and months and she acknowledged Linda Whiting, Dean Baker, Supervisor Walls and Doug Lewan for continuing to push on.

Mike Forst, 9676 Susin Lane, asked if it was the Board's intention to share these guidelines with existing businesses along Dixie Highway. It would be key to get them involved as well. Supervisor Walls said, yes. It was his opinion that they are far more important than new developments as they are already here and participating in the community.

Supervisor Walls added that he has had the opportunity to participate in a lot of things in the Township and proud of many but none more than this document. It was fun and sometimes not so fun working with a group that was so dedicated to a purpose and determined to find a middle ground and make it work, which they did.

3. Township Logo Redesign

In the Board packet were two new Township logo concepts from the website committee. It was noted the concept logos were an attempt to depict Springfield's natural features – its headwaters, open space and prairies. The Board was asked to give their opinion - one was a contemporary style and one was more distinctive. Images of the proposed new logos were presented that depicted variations of the two concepts and how they would look on light pole banners, polo shirts and on Township vehicles.

Treasurer Dubre noted there had been some delays from Revize getting concepts to the committee and ultimately to the Board. She is concerned this might be an indication of the direction of where the website design is headed.

Treasurer Dubre had copies for the Board to look at of what the logos would look like if photocopied from color to black and white. She also noted that colors, font and word placement could all be altered such as having the word "Springfield" above the graphic and the words "Charter Township" below. There was also discussion as to whether the word "Charter" needed to be included and if it should be on the same line as "Township" or if they should be on two separate lines below the graphic. It was her opinion that Springfield being a Charter Township was important and after reviewing many other Charter Township logos within Oakland County, the word "Charter" should be included.

It was Trustee Cooper's opinion that the more contemporary logo doesn't depict the Township and would prefer to build off the more distinctive one; he liked the word "Springfield" to be at the top of the logo.

Trustee Hensler said she was unsure what the contemporary design was...a road, a river, or an elongated "S" for Springfield. She liked the flowers on the more distinctive logo however suggested changing the color of the pink flower to another color or eliminating it. She also suggested the word "Springfield" be at the top and that it not be bigger, or overhang, the graphic. She believed that logo would be more recognizable and distinct than the contemporary one.

Trustee Hopper said he would like to see "Charter" and "Township" on separate lines.

Laura Moreau, Clerk

Supervisor Walls said he wasn't fond of either logo, but of the two, would choose the more distinctive one.

Trustee Vallad also liked the distinctive logo better however still liked the old one with the water, trees and birds.

Clerk Moreau commented the committee will continue to work with the distinctive logo and with tonight's feedback, will either bring it back to the Board or email variations to Board members for additional comments.

Treasurer Dubre reiterated her concern that Revize was contracted to design a logo but failed to meet their deadlines and was unable to give a reason why. She was concerned this may be an indication of how the website design will go. She also noted that the logo design the Board members liked was initially sketched by Clerk Moreau and Pete with Moreau Creative; that Pete spent a lot of time on it. It was her opinion that if this moves forward and Pete spends any more time with it, he should be compensated. Clerk Moreau said it was not the intent for anyone other than Revize to be compensated for the logo design and the Board would need to have further discussion on payment if further work is done on the logo other than by Revize.

Supervisor Walls commented that the issue here seems to be that the Township has entered into a contract with a contractor the Board no longer has faith in.

Trustee Cooper commented that Revize should be "put on notice" and informed that the Board is unhappy about the logo situation.

- * **Supervisor Walls moved to put Revize "on notice" and to notify them of that in writing - that they failed to perform in accordance with the agreement pertaining to a logo design, that they failed to perform to the minimum standards the Township had expected and requested of them and that the Township is requesting a meeting with the principal of the firm to discuss getting a different project manager and to obtain specific timelines and deliverables in regards to the website itself; further, the Township will not pay for work Revize didn't do on the logo and to emphasize the Boards' disappointment and concerns; the committee is further asked to bring a written report back to the Board at its October meeting of the results from said letter/meeting. Trustee Cooper supported the motion. Vote on the motion. Yes: Cooper, Dubre, Hensler, Hopper, Moreau, Vallad and Walls; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

4. 2015 Tax Rate Request

Supervisor Walls noted the Board had before them a Tax Rate Request form that needs to be approved. It was based on the maximum millages allowed which haven't changed for several years.

- * **Treasurer Dubre moved to authorize the 2015 Tax Rates to be levied December 1st as follows: the allocated Operating Tax in the amount of .9950 mills; the Fire Millage in the amount of 1.0000 mills; the combined Police millages in the amount of 2.9663; the Parks & Recreation millage in the amount of .7500 and the Bond Debt millage in the amount of .6500. Trustee Hopper supported the motion. Vote on the motion. Yes: Cooper, Dubre, Hensler, Hopper, Moreau, Vallad and Walls; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

5. Flexible Spending Account Continuation

Supervisor Walls explained the Township currently offers a Flexible Spending Account (FSA) which is derived from funds employees can have withheld from their wages on a monthly basis. These dollars are pre-tax and can be used to cover medical expenses. The current employee contribution limit is \$1,500.

Supervisor Walls noted that a year ago the Board discussed whether or not to continue offering this option and it was suggested to continue with it if at least six employees participated. There were six and so far employees have indicated their interest to participate next year.

Supervisor Walls asked the Board if they wished to increase the limit from the current \$1,500 with the maximum being \$2,550. He noted the Township's medical insurance will be changing and employees will experience higher out-of-pocket costs.

Trustee Vallad inquired if employees were aware of the insurance changes when they were asked to indicate if they would participate in an FSA program in 2016? Supervisor Walls said that a letter went out to all employees but did not recall exactly what was in that letter.

Treasurer Dubre also reminded the Board there is a risk involved should an employee elect to participate in the program, uses all their allocated funds then leaves employment before actually contributing anything. Per IRS regulations, the employee is not allowed to pay back any of those funds. She noted she had correspondence from Attorney Need pertaining to this risk. She did however note that the risk is small and that Township employees have longevity. It would be her recommendation to increase the maximum contribution amount to \$2,500.

- * **Treasurer Dubre moved to authorize participation in the FSA for 2016 with an employee contribution maximum set at \$2,500.00. Clerk Moreau supported the motion. Vote on the motion. Yes: Cooper, Dubre, Hensler, Hopper, Moreau, Vallad and Walls; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

Treasurer Dubre commented that the new out-of-pocket maximum for 2-family medical is \$13,200.

6. Wilma LLC Land Division – Possible closed session to consider Attorney-Client Privilege Communication
- * **Clerk Moreau moved that the Board enter Closed Session to consider Attorney-Client Privilege Communication regarding the Wilma LLC Land Division request. Trustee Vallad supported the motion. Roll Call Vote on the motion. Yes: Vallad, Moreau, Cooper, Walls, Hopper, Hensler and Dubre; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

The Board went into Closed Session at 9:17pm

The Board returned to Open Session at 9:32pm

Supervisor Walls explained the issue being considered is the division of property that includes a house and funeral home. Approximately 10 years ago the funeral home was approved under a Special Land Use in an office zoning district.

The purpose of the division would allow the single family home to be used by Ms. Coats as her residence and it be separated from the balance of the property. The division will allow the house to have one acre and its own legal and tax descriptions.

For the requested division to take place without the proposed consent, the property owner would have to go through a very long and expensive process which Supervisor Walls explained. An alternative to this process, which was discussed in the Closed Session, is known as “friendly litigation”

Friendly litigation is used in cases where there are unique and unusual circumstances without a reasonable alternative. This is a very unique situation and the proposal would provide benefits to both the applicant and the Township. The zoning will stay the same, the proposal under friendly litigation would allow the house to be divided off and limit it to single family use. Access to the house would be allowed by the same means it is currently being accessed only it would be a separately described easement off of Dixie Highway over what is now the

main drive to the funeral home. The suggested consent would also allow the adjacent vacant piece of property currently zoned office to be used for office uses or for the expansion of the funeral home or funeral home accessory use after Site Plan approval without having to go through the Special Land Use process. Proper easements have been drafted for the access and for drainage overflow to a retention basin that exists on the front parcel in case it is needed.

Ms. Coats inquired about an easement for the swail. Supervisor Walls explained it is permanent for drainage purposes. When there is a need for a swail to be constructed, the owner of Parcel A has a temporary easement to actually construct the swail over Parcel B. Supervisor Walls also suggested that Ms. Coats have an attorney look at the easement agreement when it is drawn up; that parcel A maintains the paved area and parcel B maintains the gravel area of the drive.

- * **Supervisor Wall moved the approval of the land divisions as presented and authorizes the Supervisor and attorney to enter into a Consent Judgment generally in the form of the draft that was presented to Board members tonight. Trustee Hopper supported the motion. Vote on the motion. Yes: Vallad, Moreau, Copper, Walls, Hopper, Hensler and Dubre; No: none; Absent: none. The motion carried by a 7 to 0 vote.**

Public Comment:

Clerk Moreau noted this is Recording Secretary Harrison's last meeting. Ms. Harrison has been excellent but she has taken a full-time position with Orion Township.

Adjournment:

Hearing no other business, Supervisor Walls adjourned the meeting at 9:45pm.
