

SPRINGFIELD TOWNSHIP BOARD MEETING
April 16, 2009
SYNOPSIS

CALL TO ORDER: 7:30 p.m. by Supervisor Trout

PLEDGE OF ALLEGIANCE

PUBLIC COMMENT: John Bistoff, 8625 Waumegah Lake Rd. Provided update regarding condition of Waumegah Lake and raised questions and concerns regarding how the lake will be managed in the future.

CONSENT AGENDA:

- a) Approved of Minutes: March 12, 2009 Regular Meeting with bills and additional disbursements of \$ 203,604.13
- b) Accepted of March Treasurer's Report
- c) Received March 2009 Reports: Building, Electrical, Plumbing, Mechanical, Ordinance and Fire
- d) Authorized payment of bills as presented, totaling \$148,099.61
- e) Authorized participation in RCOC dust control program @ 28¢/linear foot for five applications on public roads; authorize contracting with Road Maintenance Inc. for dust control on private roads @ 40¢/linear foot for 4 applications

PUBLIC HEARINGS:

OLD BUSINESS:

1. Davisburg/Dixie Market: Discussed transfer of ownership and status of new signage proposal. Reviewed draft amendment to consent judgment.

NEW BUSINESS:

1. CCIRF presentation by Ann Collison: Received update regarding solid waste management study conducted by Consultant Resource Recycling Systems on behalf of Springfield Township and six other participating Oakland County Communities
2. Site Plan Refund Request: Jonathan Crane/Verizon: Declined request to refund site plan fees.
3. Parks and Recreation Budget Amendment: Approved budget amendments
4. Road Graveling: Authorized Supervisor to proceed with road graveling project
5. West Nile Program: Authorized Supervisor's Department to submit the proposed project to the Board of Commissioners to participate in the 2009 West Nile program
6. Civic Center Cost Split, Library Billing: Discussed billing procedure to provide more detailed historical and supporting information and to improve communication with Library Director and Board

PUBLIC COMMENT: Julie Nitowski, 5745 Ormond, requested that the Township conducts a solid waste management survey by mail because not all residents have internet access.

Carol Malear, 10199 Wellington, requested information regarding companies involved in the technology vendor interviews through the CCIRF study.

Carol Evans, Smith's Disposal, asked why Smith's Disposal was not listed as a hauler in the solid waste management study survey.

ADJOURNMENT: 8:56 p.m.

Laura Moreau, Clerk

Minutes of REGULAR MEETING
 Held April 16, 2009
 Township of Springfield

Laura Moreau, Clerk

Call to Order: Supervisor Mike Trout called the April 16, 2009 Regular Meeting of the Springfield Township Board to order at 7:30 p.m. at the Springfield Township Civic Center, 12000 Davisburg Road, Davisburg, MI 48350.

Pledge of Allegiance

Roll Call:

Board Members Present

Mike Trout	Township Supervisor
Laura Moreau	Township Clerk
Jamie Dubre	Township Treasurer
Judy Hensler	Township Trustee
David Hopper	Township Trustee
Roger Lamont	Township Trustee
Dennis Vallad	Township Trustee

Board Members Not Present

None

Others Present

Greg Need	Township Attorney
-----------	-------------------

Agenda Additions & Changes: None

Public Comment:

John Bistoff, 8625 Waumegah Lake Road, Clarkston, MI 48348, stated he initially brought the Waumegah Lake fish kill to the Board last month and asked for assistance. He stated there is no need for the Township to assist residents in removing dead fish. After the last meeting he received a letter from an Attorney for Cygnet Enterprises, who is the supplier of the chemicals used in the lake, that states he slandered Cygnet Enterprises. Mr. Bistoff stated that was not his intention but instead he tried to point out that there may be a conflict of interest involving a different party that might be contributing to the lake board's unwillingness to harvest the lake instead of putting chemicals in it.

Mr. Bistoff stated that the multiple large scale treatments that have taken place on the lake from 2006-2008 have created a thick layer of decomposing organic matter on the lake bottom. Late summer poisoning compounds this problem because it increases the amount of dead plants that will still be decomposing after the lake freezes over because there is not sufficient time for the re-growth of plants needed to oxygenate the lake after it freezes.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Mr. Bistoff stated there have been a lot of denials that chemicals contributed to the fish kill, but he feels there are obvious indications to the contrary. Mr. Bistoff clarified the depth of Waumegah Lake to be as much as 21.5 feet deep in some areas. He explained that several small, shallow ponds immediately surrounding Waumegah Lake survived the winter conditions with no harm to the fish population but three lakes in Oakland County experienced a fish kill. He noted similarities in the three lakes and stated that two of the lakes, Eagle and Waumegah, were treated with chemicals late in the summer of 2008 and the third lake, Taggett, experienced its second recent fish kill. Mr. Bistoff requested that the Township help in precluding any recurrence and he believes that the Township's voice on the Lake Improvement Board should differ from the Riparian Representative as part of a system of checks and balances. He also stated that he believes that chemicals should be used extremely sparingly, if at all, this year to give the lake a chance to recover.

Consent Agenda:

* **Trustee Hopper moved to approve the Consent Agenda as published. Trustee Vallad supported the motion. Vote on the motion. Yes: Dubre, Hensler, Hopper, Lamont, Moreau, Trout, and Vallad; No: None; Absent: None. The motion carried by a 7 to 0 vote.**

- a) Approval of Minutes: March 12, 2009 Regular Meeting with bills and additional disbursements of \$203,604.13
- b) Acceptance of March Treasurer's Report
- c) Receipt of March 2009 Reports: Building, Electrical, Plumbing, Mechanical, Ordinance and Fire
- d) Authorize payment of bills as presented, totaling \$148,099.61
- e) Authorize participation in RCOC dust control program @ 28¢/liner foot for five applications on public roads; authorizing contracting with Road Maintenance Inc. for dust control on private roads @ 40¢/linear foot for 4 applications

Receipt of Communications

- Letter from Oakland County regarding Wireless Oakland
- Letter from the State of Michigan regarding Construction Codes
- 4 different letters from Comcast Cable regarding channel line up, Services and price reduction
- Letter from Campfire USA, Southeast Michigan Council asking for volunteers and donations

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

- Sub-Station & Capital Improvement Plan update from Supervisor Trout
- Memo from Vicki Sievers regarding taxable value information
- Memo from Laura Moreau regarding enrollment in new health insurance option

Public Hearing:

Old Business:

1. Davisburg/Dixie Market

Supervisor Trout stated the latest information he has is that the ownership and liquor license has transferred to Buscemi's and they are the primary proponent of the new sign plan. Mr. Schuster, who previously addressed the Board, has been informed that there are additional changes to be made. Before this comes back to the Board, revised plans need to be received.

Attorney Need stated based on discussion last month, a draft of an Amendment to the Consent Judgment was prepared. To approve what the property owner wants to do in regards to signage requires a simple amendment by attaching the new plan and plan of the old one and describing how that would differ from the old plan, which is not known at this time. What is in the packet is the framework of what the Judgment would look like.

Supervisor Trout clarified that once the signage plan is approved, it will be attached to the Consent Judgment, which will be approved with the attachment, and asked if it would need to be recorded.

Attorney Need stated the Judgment would be signed by a Judge and the property owner (and/or their Attorney), and would be filed with the Circuit Court.

Supervisor Trout asked if both items can be approved at the same meeting. Attorney Need responded yes.

New Business:

1. CCIRF presentation by Anne Collison

Supervisor Trout stated the CCIRF Study which is in a preliminary stage is being undertaken by several Townships to look at the best ways to handle solid waste and recycling.

Anne Collison from Resource Recycling Systems (RRS) gave a brief presentation regarding the Oakland County CCIRF Study on Solid Waste Management. She stated her firm was selected through the bid process to provide the study. Brandon, Groveland, Independence, Springfield, Waterford, West Bloomfield and White Lake Townships are participating in the study. The primary focus of the study is to answer three basic questions:

1. Are there efficiencies in working together?
2. What systems can increase recycling and waste diversion?
3. Are emerging technologies feasible?

Ms. Collison gave an overview of the study tasks which include:

- | | |
|--------|--|
| Task 1 | Current Conditions/Baseline Data Review |
| Task 2 | Identify Program Options |
| Task 3 | Identify Cooperative Partners |
| Task 4 | Evaluation of Existing and Emerging Technologies |
| Task 5 | Evaluation/Recommendations |
| Task 6 | Community Input/Feedback |

Ms. Collison stated task 6 is now being taken a step further by having a survey available both online and in hard copy format.

Regarding the program options, Ms. Collison stated RRS first started by determining what the baseline data was for solid waste recycling and yard waste. In communities like Springfield where residents choose their own service, less data is collected. RRS provided estimates of what they think the Township will generate overall. Then they take a look at what all the Townships generate to come up with a total. They also looked at different models of what communities do for solid waste and recycling management. RRS next looked at cooperative structures, if the groups of communities in the study were to come together, what structure could they operate under (i.e. intergovernmental agreement, form an authority, etc.). Informational meetings have been held every other week with communication pieces provided to the Supervisors of the participating communities. Ms. Collison stated RRS looked at various recycling program costs and recovery percentages.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Ms. Collison stated there are up and coming conversion technologies being developed as an alternative to the conventional methods of handling trash. These technologies either use or produce heat to change the composition of trash. The end product is something that can be used as a fuel. The different types of conversion technologies include thermal, digestion, hydrolysis, chemical and mechanical processing.

Ms. Collison stated so far RRS has conducted a literature review of the latest technologies. There are large studies currently going on in major market areas looking at these alternatives. They have been taking a look at companies involved with this technology and it was decided more information was needed to see if these companies would be feasible for northern Oakland County. Through the literature review, it was found that none of these facilities exist in the United States; a lot of this technology has been proven in areas where space is at a premium. Responses were received from a recent request for information and RRS is inviting several companies to talk to the study group.

Ms. Collison stated each community has been provided educational materials throughout this process that include a study overview and updates, system descriptions of the different program options, recycling information, and a question and answer piece. The next step is a survey to make sure information is received from residents regarding their current services and preferences.

Ms. Collison recapped the basic questions the study focused on stating there are efficiencies in working together and cited examples of communities working together including the No-HAZ program and SOCRRA. She stated two years ago SOCRRA went out for bid on behalf of all their communities for trash and recycling services that resulted in a 10-17% savings for the participating communities and three family run businesses got the contracts. The big question is whether or not the emerging technologies are feasible. Once these questions are answered, there will be more focus on recommendations. She hopes to have this information by the end of May and come back to the Board with the results of the study. At that point, it is up to the Township to decide how they want to proceed in the future.

Ms. Collison stated the next steps are to review the responses to the request for information, interview the qualified companies, finalize the study recommendations, and put the survey out to get public input. The final report will be submitted and the study summary will be presented to the Township Board.

Supervisor Trout stated he is glad Ms. Collison mentioned the SOCCRA bid process because one of his primary concerns was that local companies be included in this process. He asked Ms. Collison to elaborate on what will be discussed at the next meeting.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Ms. Collison stated four companies have been invited to the meeting to present their technologies. There will be interviews to find out specifics on costs, revenue sharing, etc. There will be time for questions after the interviews.

Clerk Moreau clarified that the four companies to be interviewed deal with technologies for dealing with the waste, not hauling or collecting. Ms. Collison responded yes, the waste would be picked up by a hauler and delivered to a facility.

Supervisor Trout stated the survey should be on the Township's website by early next week.

2. Site Plan Refund Request: Jonathan Crane/Verizon

Supervisor Trout stated the applicant was charged \$1550.00. He recommends this amount stand and no refund be given.

Treasurer Dubre agreed, noting the fee was reduced from \$3,500.00 to \$1,550.00.

Trustee Vallad stated the letter received from Mr. Crane indicates a \$1900.00 removal bond and that the removal was already required in the County Water Tower lease. He asked if applicant was required to post a bond with the County.

Attorney Need stated the Ordinance requires a removal bond, but when he looked at the language he thought because the applicant was required to post that as part of the County lease, the Township would not require one. He does not know why the letter indicates \$1900.00 for a removal bond because he does not believe that money was ever paid to the Township.

Treasurer Dubre stated there is no escrow fund set up for a removal bond on this project.

* **Treasurer Dubre moved to decline the request for Site Plan refund in any amount because the fee has already been significantly reduced. Trustee Vallad supported the motion. Vote on the motion: Yes: Dubre, Hensler, Hopper, Lamont, Moreau, Trout, and Vallad; No: None; Absent: None. The motion carried by a 7 to 0 vote.**

3. Parks and Recreation Budget Amendment

Jennifer Tucker, Parks and Recreation Director, stated the well quit functioning at the rental house on Eaton Road. Because there were health and safety concerns, repairs had to be done quickly. The Parks Commission held a special meeting to hire a contractor for the repairs and approve a budget amendment. The Park Commission decided to forgo mechanical weed harvesting at Mill Pond to put monies toward the new well.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

- * **Trustee Vallad moved to approve the Parks Fund budget amendments as presented in Director Tucker's memo of March 17, 2009. Trustee Hopper supported the motion. Vote on the motion: Yes: Dubre, Hensler, Hopper, Lamont, Moreau, Trout, and Vallad; No: None; Absent: None. The motion carried by a 7 to 0 vote.**

4. Road Graveling

Supervisor Trout stated \$80,000.00 has been budgeted for road graveling and that amount does not cover all of the Road Commission's graveling recommendations.

Treasurer Dubre stated she has documentation that indicates when roads were graveled in prior years if anyone wants to know the last time a particular road was graveled.

Supervisor Trout stated if the 23A standard gravel is used, which is the less expensive gravel, the Township can gravel the following roads:

- Big Lake Road from Scott west around the lake
- Rattalee Lake Road from Webber, east to Dixie Highway
- Hillsboro from Big Lake to Schaffer
- Bridge Lake from Holcomb to Lake Bluffs

Supervisor Trout stated the Bridge Lake section has historically been shared with the area residents and he proposes that continue with the cost being split 50/50 between the residents and Township.

These projects would total about \$75,000.00, and would not include the recommendation from the Road Commission to gravel Hillman, Morning, Haylock and Long Point.

Trustee Hopper stated he thinks this is a good recommendation. If the subdivision wants to contribute half toward the Bridge Lake graveling, he is willing to contribute half. In the past Tri-Party funds have been used for large projects such as paving gravel roads and intersection repairs. He would like those monies to be used for the realignment of Big Lake Road at Dixie Highway, not for graveling.

Treasurer Dubre stated the data she pulled goes back five years and it does not show that Rattalee Lake Road from Webber east to Dixie Highway was graveled during that period. Bridge Lake from Holcomb to Lake Bluffs was done in 2006, on a 50/50 split.

Trustee Vallad agreed with Trustee Hopper's comments that Tri-Party funds have been historically used for paving and other major projects. In the past the Township has asked the Road Commission to spot gravel some of the roads that can't be funded entirely. This

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

would require money beyond the \$80,000.00 budgeted but is a way to address some of the Road Commission's recommendations.

Trustee Lamont likes the suggestions presented tonight and agrees with graveling Bridge Lake on a shared basis with the residents.

Treasurer Dubre stated she does not want to add money to the gravel budget. If the residents in the Bridge Lake area don't want to contribute, additional monies will be available.

Trustee Vallad stated \$2,000.00-\$3,000.00 needs to be added to the \$80,000.00 to gravel a mile of the remaining projects and let the Road Commission pick which mile to gravel.

Trustee Lamont asked Trustee Vallad to clarify if his comment was to utilize money to gravel only 1 of the 3.75 miles of Rattalee Lake, or to use 21AA on the worst mile.

Trustee Vallad stated the Hillman, Morning, Haylock and Long Point that was suggested for graveling by the Road Commission wasn't included in the \$75,000.00 laid out by the Supervisor. There is \$5,000.00 left in the budget. He clarified his intent was to use the 23A gravel on all roads, and to pick the worst mile out of the Hillman, Morning, Haylock, and Long Point, and add the additional \$2,000.00 - \$3,000.00 needed to pave that mile.

Trustee Lamont asked if that suggestion was contingent on Bridge Lake Bluffs paying 50% of the graveling of Bridge Lake Road. Trustee Vallad responded yes.

Treasurer Dubre would like to see 21AA used on the roads that are high on the priority list for graveling and to let the Road Commission decide which road, and where on the road, to use 21AA.

- * **Trustee Hopper moved to authorize the Supervisor to enter into an agreement for 2009 road graveling on 1) Big Lake Road from Scott west around the lake; 2) Rattalee Lake from Weber east to Dixie Highway; 3) Hillsboro from Big Lake to Schaffer; 4) Bridge Lake from Holcomb to Lake Bluffs, if the adjacent subdivision agrees to a 50/50 split as has been done in the past, using 23A material, with the additional leftover budgeted monies, to be used by the Supervisor as he sees fit throughout the Township by either adding 21AA spec in additional areas, or adding additional roads as he feels necessary. Treasurer Dubre supported the motion.**

Fire Chief Oaks would like the Board to consider graveling Hillman. He knows it is not a heavily traveled road but Fire Trucks go down it and the road is terrible.

Vote on the motion: Yes: Dubre, Hensler, Hopper, Lamont, Moreau, Trout, and Vallad; No: None; Absent: None. The motion carried by a 7 to 0 vote.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Trustee Hopper suggested in the future that the graveling recommendations from the Road Commission be forwarded to the Fire Chief before coming to the Township Board.

5. West Nile Program

Supervisor Trout stated this has been a successful program that includes larvicide treatments, dunks and mosquito repellent.

Trustee Hensler commented this program was very popular and appreciated by residents around Dixie Lake and many residents got the dunks for inlets and ponds in the area.

* **Treasurer Dubre moved to authorize the Supervisor to submit the proposed project and scope for the 2009 West Nile Program. Trustee Hopper supported the motion. Vote on the motion: Yes: Dubre, Hensler, Hopper, Lamont, Moreau, Trout, and Vallad; No: None; Absent: None. The motion carried by a 7 to 0 vote.**

6. Civic Center Cost Split: Library Billing

Clerk Moreau stated the Clerk's Office was made aware of concerns from the Library regarding when they are notified about expenses. There were repairs to the parking lot that caught them by surprise. In addition there were quite a few snow pushes. She stated Deputy Clerk Carol Jones has been preparing a quarterly cost split and billing for the Library. When the Library received the 4th quarter 2008 billing, they were caught off guard. This led to discussions about how the Township can help the Library prepare their budget. She provided a couple of different charts in the meeting packet. She will start providing monthly information to the Library so they will not be surprised at their expense following the end of the quarter. Also, she suggested that the Township must do a better job of communicating with the Library when a major project comes up.

Clerk Moreau is proposing the second chart in the packet. This chart calculates an average monthly cost based on the previous three years and came up with a monthly average of that grand total. This formula is only for general maintenance and utility expenses. She spoke with Cathy Forst, who is open to the idea that if expenses were considerably above what was billed, possibly doing a cost spread, similar to what utility companies will do on a budget plan. The costs for any large projects would be billed above and beyond the monthly billing.

Treasurer Dubre asked Clerk Moreau what she would consider in excess. At what dollar amount would the Library be billed the differential.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Clerk Moreau stated she doesn't have a number in mind. She does not think a cost spread would need to be done because over time it would work out. She is open to suggestions if any Board Members feel a certain amount is too much to float. One option would be that any amount above and beyond what was collected would be rolled into the calculation for the next twelve months; the monthly average would be figured on the previous three years and then add on the total of what was not collected from the previous year and spread over the coming twelve months.

Treasurer Dubre stated she thinks any amount is too much to float. The Township picks up significant costs that it doesn't offset (i.e. accounting, payroll) and expenses were calculated based on the square footage the Library has.

Trustee Hensler asked if overages are going to be rolled into the next year's calculations, would an underage be rolled in as well. Treasurer Dubre stated that would not be her intent.

Trustee Lamont asked how the Auditors feel about changing the billing.

Clerk Moreau stated Deputy Clerk Jones brought this up to the Auditors and it doesn't appear to an issue.

Trustee Lamont stated he sees how this would help the budget process for both the Library and Township. He thinks the three year average makes sense and would eliminate the spikes in payments.

Trustee Vallad stated he is not a fan of the three year average. A budget can be established using historical data. He likes the suggestions to provide information monthly and communicate better regarding special projects and thinks that makes more sense than using a three year average.

Treasurer Dubre thinks the billing should be left as is and provide the Library information on a monthly basis. If there is an overage, the Township doesn't have to worry about it, and if there is an underage, the Library has their money.

Supervisor Trout asked why the Library is billed quarterly instead of monthly. Treasurer Dubre responded because they are billed for their space and when that was originally set up, it was done on a quarterly basis. The billing is done on a formula based on the square footage of usable space. Also, some bills run behind, and it is easier to compile more accurate data on a quarterly basis.

Clerk Moreau suggested the billing stay the same but to provide information on a monthly basis. If there is still a concern from the Library, she will come back to the Board with an update.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Board consensus was to leave the billing as is and provided the Library with information monthly.

Public Comment:

Julie Nitowski, 5745 Ormond Road, Davisburg, commented regarding the CCIRF presentation. If the studies are going to be based on an online survey, she hopes it is not the only survey that will be done. She stated many people don't have computers and she does not think the word is getting out to everybody.

Carol Malear, 10199 Wellington Drive, stated she was disappointed there was no public comment after the presentation. She asked who the four companies are, and what do they provide? What does the Township have to gain from this study? She asked when the next meeting is to discuss this information.

Supervisor Trout responded the Township is being included in a study that is no cost to the Township, but has objectives of looking at ways to preserve the environment, reduce costs to residents, and improve services. He stated it's purely a study being conducted by a group to see if there is efficiency by communities working together in regard to the issue of waste hauling, recycling and composting. Each community has to decide at some point what will work for them, and there are a multitude of options. It is his opinion if the Township had not been included in the study, it would not be doing a service to the community. The next meeting is some of the emerging technologies trying to market their products and/or facilities in the United States; three or four of these companies are going to present their technology to a group of Supervisors. He has no idea what the outcome of this will be, but is trying to stay informed of what is out there. The primary concern is for residents, businesses in the community, and the environment. He stated every piece of literature he has received is on the Township' website and hard copies are available.

Carol Malear, 10199 Wellington Drive, asked Supervisor Trout asked if he knows the names of the companies, or where they are located. Supervisor Trout responded no, this information will be provided at a meeting next Tuesday.

Mrs. Malear asked if the information from that meeting would be posted on the website. Supervisor Trout responded yes. He wants people to know what technology is out there to process waste. He stated this does not affect the waste haulers; this is what would happen to trash instead of going to a landfill.

Mrs. Malear asked if any of these are coming to Oakland County. Supervisor Trout responded if this technology is available it would seem like there would be opportunities to be located in Oakland County.

Minutes of REGULAR MEETING
Held April 16, 2009
Township of Springfield

Laura Moreau, Clerk

Carol Evans from Smith's Disposal asked why her company isn't listed on the survey on the internet, some of the Township's have it on their websites.

Julie Nitowski stated Ann Collison stated during her presentation that the survey is coming to the Township within the week to be put on the internet. She asked that Smith's Disposal be represented on the survey. She stated other Townships where Smith's Disposal is a current carrier, was not put on the survey but the other contract haulers were listed.

Treasurer Dubre asked how long the survey is. Supervisor Trout responded it is two – three pages long. He stated he is refining the survey and he has not reviewed the final version.

Treasurer Dubre stated if the survey could be copied on one sheet front to back, it could be included in the tax bill.

Julie Nitowski stated she knows budgets are tight and asked if the survey could be included with the tax bill so those residents that do not have internet access can participate in the survey.

Supervisor Trout stated the Spring Clean-up day is scheduled for Saturday May 9, 2009.

Adjournment:

Hearing no other business, Supervisor Trout adjourned the meeting at 8:56 p.m.

Mike Trout, Township Supervisor
